Speaker Dock/Clock Radio for iPod

Features

- Adjustable Backstop The adjustable backstop allows the iPod[1] to fit securely in the unit.
- Wake/Sleep to iPod, Radio or Buzzer Fall asleep and wake up to your iPod, the radio or a buzzer.
- Automatic Time Set (ATS) The correct EST (Eastern Standard Time) has been preset at the factory, so just plug the clock in and adjust the time zone as necessary. In the case of a power interruption, the built-in Lithium battery maintains the correct time so when the power returns you don't have to re-set the clock
- Automatic Daylight Savings Time When Daylight Savings Time changes take place in the spring and fall each year, there is no need to adjust the clock because the built-in calendar recognizes the dates and automatically makes the proper time adjustments.
- Digital AM/FM Tuner Let's you choose from a wide variety of radio, talk and music programming.
- Remote included Allows access to all the music on your iPod from across the room.
- Dual Alarm Set two separate wake-up times with the option of waking up to your iPod, the radio or a buzzer.
- Stereo Speakers with MEGAXpand
- iPod Battery Charging While your iPod is on the dock, it will charge so you never have to worry about running low on battery life.
- Audio Input Lets you easily connect other digital music players to the clock radio for easy access to all of your music.
